

BLUE GOLIA

Single Disc Machines

KÜNZLE & TASIN

BLUE GOLIA "world"...

BLUE GOLIA

P/N 4899950043

Lightweight and well performing, Blue Golia, is the most efficient solution for daily cleaning and ordinary maintenance on most surfaces.

BLUE GOLIA PLUS

P/N 4899950044

Blue Golia Plus is a powerful combination of robustness, force and ergonomics, suitable for cleaning and floor treatments on worn or damaged floors (marble, ceramic, wood, concrete, ...).

BLUE GOLIA PLUS KN

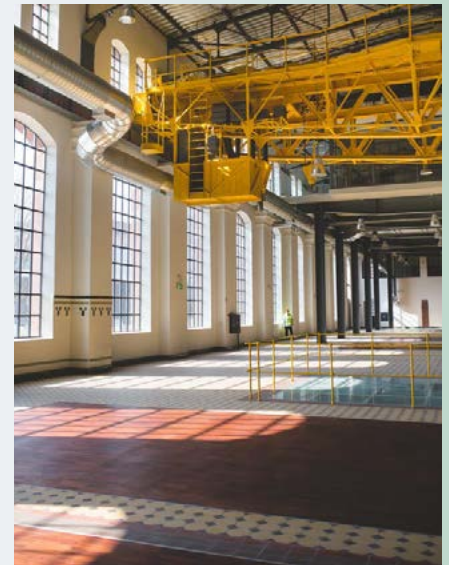

P/N 4899950045

King NEB planetary disc **emphasizes** and **enhances** Blue Golia Plus qualities and **power**, thus making floor treatment and renovation even more simple, deep and effective.

The wide range of accessories makes Blue Golia Plus KN the perfect machine, especially for heavy duty treatments on different kinds of surfaces. (marble, wood, concrete, ...).

... 3 models, 3 synergical ways of working

BLUE GOLIA: the best way to “treat” surfaces

BLUE GOLIA range the future has begun long time ago

Golia single disc machines, “classic” and successful models, well known in the market, represent in the best way Künzle & Tasin’s competence in professional treatment of all the main surfaces.

Blue Golia are now back, updated in design and in some technical functions.

3 models, differing in some technical aspects and equipment, but all belonging to a common “line” and idea of development, deeply focused on the creation of ergonomic and high performing products.

The well known drive flange (with “twist-lock” connection), able to “host” all the main brushes and drive discs, the robust alu basement, the reliable and powerful motors, the ergonomic and robust handles, ... all has been thought to really simplify the daily job of cleaning specialists and floor treatment professionals.

That’s Blue Golia range: 3 machines, different but synergal in terms of features and field of employment, to better perform in any situation and task, either **ordinary maintenance operations** or **heavy duty ones**.

Thanks to the wide accessory range every operator can work effectively with Blue Golia on all the main surfaces. Stone, ceramic, linoleum, wood, ... Blue Golia can work in the best way on every kind of floor.

BLUE GOLIA the “classic” solution for daily cleaning

A successful cleaning and daily maintenance of floors requires high quality machines; reliable, easy to use and effective at the same time.

That’s what Blue Golia is always being doing.

Lightweight and smooth to move and operate, Blue Golia is a “start and go” machine, easy to use and not requiring any specific maintenance.

The foldable handle and the ergonomic handle grip assure a comfortable position even for long working sessions, whereas the 1100W motor, stable and reliable, allows the operator to work without problems in every environment and condition.

P/N 4899950043

BLUE GOLIA PLUS strength and performance

Successful synthesis of robustness, power and ergonomy, Blue Golia Plus is a machine you can really rely on, even for heavy and difficult tasks.

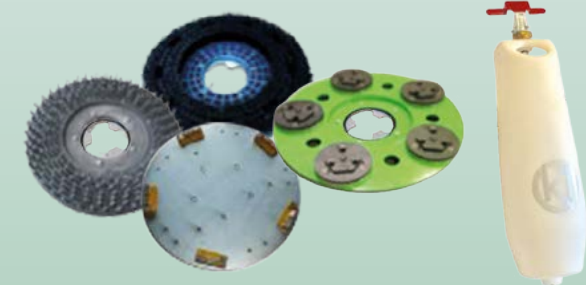

The 1850W induction motor assures a complete reliability, mostly in **high professional sectors** and for challenging operations

The rectangular handle and the solid joint for fixing it to the base, make Blue Golia Plus resistant against impacts, torsions and any other kind of big effort.

Thus able to accomplish every kind of floor treatment in every condition.

The electrical box on the left side of the handle, simplifies and speeds up all maintenance and service operations.

Finally, Blue Golia Plus can be equipped with a wide range of accessories. Standard cleaning, glues and resin removal, stone and ceramic treatment, concrete sanding and polishing, wood sanding or distressing ... each surface and operation, its own equipment. With amazing results

P/N 4499940062 Hoses/Fittings

Thanks to the King NEB planetary disc, working with Blue Golia Plus is even smoother and effective.

With King NEB everything is easy. Blue Golia Plus KN becomes even more agile and – thanks to the combined action of the 4 counter rotating discs - you can work faster and deeper.

The wide range of accessories makes Blue Golia Plus KN suitable for any kind of treatment (mostly the heavy duty ones) on every floor or surface (marble, wood, concrete, ...).

KING NEB PLANETARY DISC: STRENGTH, COMFORT, RESULTS

King NEB system guarantees a real added value in heavy duty floor treatments:

- the internal gear - directly mounted on the reduction gear - and the planetary disc - clutched on a drive flange fixed on the reduction gear as well - guarantee the maximum precision, **reliability** and **robustness** of the system;

- the counter rotating 4 satellites (brushes, rotoblades or pads) increase speed, **force** and effectiveness of the machine. At the same time Blue Golia Plus KN becomes extremely **stable** and can be **easily moved** and **manoeuvred** even for long working sessions;

- thanks to the the snap-on **NEB satellite mounting system**, you can easily install/remove any accessory (no tools needed);

... the right solution for every specific need*
